

SELECTING THE CORRECT FLAG SIZE FOR A FLAGPOLE

For in-ground poles, the fly, or length of the flag should be at least one-quarter the height of the pole. For both safety and aesthetic reasons, the length should be no longer than one-third of the flagpole height. For example, a 20 foot pole should have at least a 5 foot length flag, so a 3'x5' flag would be appropriate.

Will you be selecting a flag for a house mounted pole or an in-ground pole?

As an FYI, burial flags (those placed on caskets for funerals) are an odd size of 9.5 feet by 5 feet.

Below are recommended size flags by pole size:

Pole Type	Pole Size	Recommended Flag Size
House Mounted	6'- 8'	3'x5'
In-Ground	15'	3'x5'
In-Ground	20'	3'x5'
In-Ground	25'	4'x6'
In-Ground	30'	5'x8'
In-Ground	40'	6'x10'
In-Ground	50'	8'x12'
In-Ground	60'	10'x15'
In-Ground	70'	12'x18'
In-Ground	80'	15'x25'
In-Ground	90'	15'x25'
In-Ground	100'	15'x25'
